

Celebrate the Jubilee in Didsbury with your neighbors

DIDSBURY PIONEER

VOL. XXIV

Thursday, June 30 1927.

No. 26

Town and Country Unite in Big Celebration.

DECORATION OF STORE AND RESIDENCE REQUESTED BY MAYOR—FINE PROGRAM AND HEARTY CO-OPERATION ASSURED.

Arrangements made by Didsbury for its share in celebrating Canada's Jubilee are now fairly well complete, and residents of both town and country may rest assured of a good program. Commencing as early as 9.30 with a baseball game, the day will be one long period of enjoyment. No less than six of our country teams will participate in baseball games, and about twelve country schools will take their place in the procession.

Jubilee Specials

AT J. V. BERSCHT'S

The remainder of the stock of Mr. I. Florence of Calgary who was in business for only 2 years is on our bargain tables at prices below the regular wholesale price.

Men's felt hats, reg. \$5.00 to clear at half price	\$2.50
Men's solid leather work shoes	2.85
Big assortment of men's fine caps, reg. \$2.00 to \$2.75	1.00
Men's balbriggan shirts and drawers	.50
Men's fancy blazers pure wool with pure wool knitted waist bands, \$2.95 and	3.95
Men's cowboy hats, velour	4.95
Cowboy silk bandanas	.65
We have a number of suits left and are clearing them at \$12.50 and	15.00
Job lot of ladies slippers	1.00
Sun visors	.25

Monday our drayman unloaded a large shipment of running shoes which we purchased at a great reduction because of the quantity and are offering these to the public at prices below the regular cost price. These are number one quality and guarantee them to give absolute satisfaction.

Men's black and brown running shoes	\$1.25
Boy's brown running shoes	1.00

J. V. BERSCHT

WHERE QUALITY AND PRICE MEET

The program, as already stated, will commence with baseball at 9.30. Other games will be at 11.30 a.m., and 5 and 7 p.m. respectively. The teams represented in this series will comprise Westerdale, Clovermount, Lone Pine, Harmattan, Rosebud and Community Hall. Each team is reported to be gathering up the best men available, and some very close games will be registered.

The big procession will start off promptly at one o'clock, and after parading through the main thoroughfare of the town will pass on to the fair grounds. Here there will be the singing of patriotic songs, short addresses presentation of medals to school children, refreshments, etc., and shortly after, athletic events.

It may be added that the parade will witness several floats among which there will be included displays by the I.O.D.E., C. G.I.T., and also several from the country. A large number of decorated autos and bicycles will also be there.

The Mayor has made a request that stores and residences be decorated as much as possible, both outside and in, and it is hoped that the request will be responded to.

The country schools will meet in the Didsbury school grounds not later than 12.30, the committee requesting that this be done in order that the procession may start off promptly at the time specified.

All children taking part in the procession will be given a ticket, which entitles the holder to refreshments free of charge.

A refreshment booth will be handled by the ladies of the town, and will be located somewhere near the athletic grounds.

In an appeal to the citizens of Calgary, the mayor of that city asks that all the citizens co-operate, and suggests that instead of taking advantage of the three holidays to go out of the city, they stay at home and assist in making the Jubilee Celebration a success. At the same time he appeals to all ministers in the city to make mention of the celebration from the pulpit Sunday. He also suggests that all citizens display flags and bunting.

As arranged by the committee, the athletic events will include a large number of foot races for boys and girls of all ages. There will also be girls' basketball, boys' wheelbarrow race, school team event, 6 pupils, 5 events, relay 3-legged race, wheelbarrow race, tug-of-war, throwing baseball, bicycle races, football game (Didsbury vs. Country).

Baseball—9.30 a.m., Westerdale vs. Clovermount. 11.30 a.m., Lone Pine vs. Harmattan. 5 p.m., Rosebud vs. Community Hall. 7 p.m., semi-final. Final game on Saturday night at six p.m.

Committees—Races—J. A. Mc Ghee, L. Good, I. Casey, J. R. Miller, E. Cressman, C. E. Reiber. Football, E. Cressman. Baseball, C. E. Reiber.

By reason of the fact that Canada is a forested country, and that, at this time of year, the danger of forest fires is considerable, the lighting of beacons or bonfires throughout the Dominion on the night of July 1, as formerly suggested in certain quarters is discouraged the Confederation Jubilee committee says in a statement issued Friday. It is expected that all places having electrical facilities will see to it that their buildings are illuminated, but it is felt that the indiscriminate lighting of bonfires would be fraught with grave danger to forest districts and should be discouraged.

Strawberries and Gooseberries.

Now is the time to buy these for canning.
We are taking orders now.

See our Meat Counter.

SMOKED MEATS, BOLOGNA, BROOKFIELD SAUSAGE, etc. Fresh Tuesdays and Fridays. Only Fresh and clean goods sold.

Don't forget Quaker Flour.

Beds, Springs & Mattresses always on hand at the best prices.

NOTICE. July 1-2, Friday and Saturday, have been proclaimed legal holidays by Act of Parliament. Stores will be closed both days.

Celebrate in Didsbury on July 1st.

WORLD HAPPENINGS BRIEFLY TOLD

The will of Sir Wm. Mackenzie, former president of the Canadian Northern Railway, Toronto, who died on December 5, 1923, has been probated in London. Sir William left an English estate valued at £17,000.

Dr. Julio Brevo, special medical health officer of Madrid, Spain, after nine months' study of disease prevention and control methods in American cities, is visiting Canada to pursue similar investigations.

A man born in England and a resident for fifty years of the United States, has contributed \$4,750 worth of bonds toward reduction of the British debt to the United States. This is his fourth donation.

The Soviet Military and Naval Court at Kronstadt condemned to death Commander Klepikoff, an officer in the Baltic fleet, who was accused of espionage in behalf of Great Britain.

Colonel Charles Lindbergh has been invited by the Canadian National Exhibition to visit Canada as the guest of the exhibition, which officials state they expect will be opened by the Prince of Wales on August 27 next.

Many of the red cedar totem poles that now stand as sentinels of the past at half-deserted Indian villages along the British Columbia coast are more than four centuries old, in the opinion of the Capilano Timber Company.

Following on the visit of the British government director of airship development, accompanied by air ministry experts, the Union Government has decided to authorize the immediate placing of contracts for erection in South Africa of a mooring tower for airships.

The burden of responsibility for accidents occurring at unprotected railway crossings rests with the motorists, according to the tenor of three judgments rendered by Mr. Justice Demers, of the Superior Court, Montreal, who dismissed three actions instituted against the Canadian Pacific Railway by relatives of three victims of an accident at Maskinonge.

Recommend Liver Diet

Believed to Have Beneficial Effect in Case of Anaemia

Liver diet as a treatment for anaemia was discussed by the Canadian and Ontario Medical Association in convention at Toronto.

Dr. F. J. Campbell, of London, Ontario, read a paper which concluded that the feeding of liver, whether from beef, calves, sheep, or pigs, has been proved very successful in combating pernicious anaemia. He pointed out that as the duration of this disease is from five to ten years, it was too early to say that liver feeding was a cure. Results, however, after one year's experiment, were very promising.

Saskatchewan Livestock Pool

A total of 3,750 contracts covering 1,565 carloads of livestock to be marketed during the year, beginning June 1, when the Saskatchewan Livestock Pool started operation, have been received at the Pool headquarters to date.

China's Population Decreasing

Due to Abnormally High Death Rate Says Statistician

China, with its swarming millions of people, its crowded streets and villages, has a very low rate of population increase in recent years, largely because of the great proportion of death. This fact is shown by a new study of Chinese censuses since 1741, made by a Chinese Government statistician named Changhen Chen.

In 1741 the Chinese people numbered only about 25,000,000 more than the United States population of today, and in the fifty years following 1741 the population more than doubled, advancing at the rate of 15 to the 1,000 people every year. In the next half century the population increase slowed down to less than five additions a year to each 1,000 people. From 1819 down to 1923 the rate of addition has gone down to only .81 a thousand. This, Mr. Chang says, is lower than the rate of population advance in any other country except France.

"The rate of increase of nations of the white race since 1800 has been 11 a 1,000," he says. "This means that the rate of increase of the Chinese population in modern times has been not quite one-third as fast as that of other countries."

The Chinese population reached the 400,000,000 mark back in 1925, according to the census figures. Since that time it has advanced only to 538,370,000, and the statistician believes that this extraordinarily slow rate of advance is due to high death rates rather than to low birth rates. China does not need any large increase of population at present, he adds, but high death rates are not healthy factors.

Winnipeg Newspaper Union

A Modish New Frock

Of girlish simplicity is the attractive frock shown here. The two-piece skirt is shirred to the bodice having a round neck and gathers at the front of each shoulder. View B has a short kimono sleeves and View A has long sleeves shirred to the short ones and gathered at the lower edge into wrist-bands. A chic bow is placed at the left shoulder and a wide girdle is crushed into a buckle at the front. No. 1588 is for misses and small women and is in sizes 16, 18 and 20 years. Size 18 (36 bust), requires 3 3/4 yards 39-inch material, or 2 3/4 yards 54-inch; 1 1/2 yard less 39-inch material is required for dress with short sleeves. Price 20 cents the pattern.

Home sewing brings nice clothes within the reach of all, and to follow the mode is delightful when it can be done so easily and economically by following the styles pictured in our new Fashion Book. A chart accompanying each pattern shows the material as it appears when cut out. Every detail is explained so that the inexperienced sewer can make without difficulty an attractive dress. Price of the book 10 cents the copy.

How to Avoid Cancer

That celebrated British surgeon and cancer authority, Dr. Robert Bell, M.D., F.R.C.S., &c., voluntarily sacrificed his highly lucrative surgical practice when, after long years of exhaustive research and practical experience, he nobly published the following statement of vital import to the cancer-stricken civilized world:—"Cancer is a blood disease and its breeding-ground is the colon. Neither X-ray nor radium has ever cured or will ever prove of service as a cure for cancer. From my knowledge of the disease I affirm that the knife has never cured Cancer in a single instance; but, on the contrary, has only succeeded in aggravating the disease and adding to the sufferings of the poor patient."

Countless thankful patients living today mourn the passing in 1926 of the author of the above quoted words and if Dr. Robert Bell's profoundly considered warning is now heeded, it is possible for the public to render the devastating Cancer scourge a mere matter of history.

Civilization's diet is responsible for depriving the public of the abundantly provided organic salts essential to health preservation and the substitution of what have been truly described as "foodless foods" which create a superabundance of acids in the human body, resulting in the now practically universal complaint of constipation that is the inevitable forerunner of Cancer and also of ninety per centum of all civilization's physical maladies.

The active irritants contained in pills, purgatives and laxatives, combined with their only partial relief, caused Dr. Robert Bell to soundly condemn their use as being injurious and dangerous. The method of curing constipation without drugs is disclosed in the last book presented to the writer by Dr. Bell, whose advice is quoted in the writer's copyright dietary which is mailed without charge to every Canadian and American purchaser of the English home Cancer Treatment. Detailed information concerning this treatment is also freely mailed on application to Charles Walter at 51 Brunswick Avenue, Toronto 4, Ontario, Canada.

An Ancient Custom

Ostracism was a method employed by the ancient Athenians of banishing citizens whose influence was considered prejudicial to the state. A day for voting was fixed when the people wrote on small earthen tablets or shells the names of those whom they wished banished. Six thousand votes were necessary to drive a man into exile. To ostracise today means to ignore, to exclude from a certain social circle.

SUNDAY SCHOOL LESSON

JULY 3

SAUL CHOSEN KING

Golden Text: "What doth Jehovah require of thee, but to do justly, and to love kindness, and to walk humbly with thy God?—Micah 6.8.

Lesson: 1 Samuel, Chapters 9-11.

Devotional Reading: Psalm 119.1-8.

Explanations and Comments

I. Samuel's Reminder of God's Goodness, 10.17-19. — The prophet Samuel called the people together at Mizpah and reminded them that God had delivered them as a people in former days from the oppression of the Egyptians and of other kingdoms, and now they were rejecting God in demanding a king.

"Forget not all the sunshine of the way By which the Lord hath led thee." —F. R. Havergal.

"Now therefore present yourselves before Jehovah by your tribes, and by your thousands," was the conclusion of Samuel's speech. "A wise man has said that to make the best of things in the right way is to let things make the best of us. This is what Samuel did. He made the best of this crisis in national affairs in the right way by nobly doing all he could to carry out what must be, although he did not like it, and thereby he brought out the best that was in him—magnanimity, generosity, greatness of spirit that rises above all that is envious and revengeful and petty."

It is one thing to submit to the inevitable because we must; it is quite another thing to submit graciously and let the inevitable make the best of us.

II. The Selection of a King, 10.20-24.—Samuel conducted the selection of a king by lot as if in the very presence of the Lord. Important matters were often decided by lot in Old Testament times. In Proverbs 16.33, we are told that

The lot is cast into the lap; But the whole disposing thereof Is of Jehovah.

It is thought that the "lap" here stands for the "basin" of an urn or vase. The scapegoat was chosen by lot (Lev. 16.8); the location of the several tribes in Canaan was settled by lot (Num. 32.34); the trespass of Achan was discovered by lot (Josh. 8.14-21).

First, the tribe of Benjamin was "taken" that is, chosen by lot, from among all the tribes; then the family of the Matrites from among all the families or clans (thousands); then the house of Kish, and at last Saul himself. When they looked for Saul he had disappeared. The people then sought to know God's will either through Samuel the prophet, or by means of the Urim and Thummim on the breastplate of the high priest's ephod; see Exodus 28.30; Num. 27.21; 1 Sam. 28.6. The answer came: "Behold, he hath hid himself among the baggage." They found Saul and brought him forth, and when it was seen that he was a head taller than all the rest, they thought this fitting in one who was to be their king. "See ye him whom Jehovah hath chosen, that there is none like him among all the people?" asked Samuel.

Mennonites for Peace River

Representatives of the Mennonite colony in Manitoba recently left for Peace River to investigate the desirability of homesteading in that district. If present plans are put into effect about 25,000 of these people are expected to move into the Peace River country.

CANADA'S BISLEY TEAM

Members of the 1927 Canadian Bisley team who sailed for England on June 10th, on the Cunard liner Ausonia. Seated are: Brig-Gen. G. Duff Stuart, commandant of the team, of Vancouver, on the left, and his adjutant, Major J. F. McManus, of Belleville, Ontario. Standing in the first row from left to right are: Sgt. W. H. Wood, P.P.C.L.I.; Sgt. B. W. Beaumont, of Victoria; Pte. Potter,

Pte. J. H. Houlden, of Hamilton; Sgt. Bunnell, of Sussex, N.B.; Cadet L. J. McAvity, of St. John, N.B.; C.Q.M.S. A. Parnell, of Verdun; Lt. J. E. Foreman, M.C. Second row: G. H. Gray, Sgt. F. S. Glass, Sgt. McCabe, Cpl. Douglas, C.G.G.; Pte. R. C. Stock, R.C., Toronto; Sgt. G. M. Ennis, M.M. Back Row: Lt. Kr. MacGregor, Ottawa; C.S.M. H. A. Hawkins, of Toronto; and Lt. D. T. Burke, Ottawa.

CANCER

Great Success of Cantassium Treatment

A well-known London surgeon and recognized authority on Cancer has created world-wide interest in the discovery that Cancer is due to a deficiency of potassium "salts" in the body, which causes the cells to break down and become malignant.

In order that every one may learn

The Real Cause of Cancer

A remarkable book has been

specially written. This book will be sent free to patients or any one who is interested in the most successful method of fighting "THE CANCER SOURCE."

The following is a list of the chapters:

1. The Limitations of Surgery; 2. Some Doctors Oppose Operation; 3. What Cancer Is; 4. Why the BODY CELLS BREAK DOWN; 5. Injurious Cooking Methods; 6. Common Errors in Diet; 7. Vital Elements of Food; 8. Medical Endorsements of Our Claim; 9. The Chief Minerals of the Body; 10. The Thyroid Gland; 11. Age When Lines Begin to Accumulate; 12. Potassium Causes Lime Excretion; 13. Great Value of Potassium; 14. Parts of the Body Liable to Cancer; 15. Parts Which Are Seldom Affected; 16. How a Doctor Can Help; 17. How to Avoid Cancer; 18. Death-rate From Cancer; 19. Arterial Sclerosis and Old Age; 20. Rheumatism, Gout and Kindred Complaints.

With this book are a number of interesting case-reports proving the great value of "Cantassium Treatment" in various cases. The treatment is simple and inexpensive, and can be easily taken in one's own home. Apply for free book to Charles Walter, 51 Brunswick Avenue, Toronto, Ontario, Canada.

Wanted Stained Glass Windows

Natives of India Raised Money to Beautify Church

In the centre of a Christian settlement in the jungle at Medak, Hyderabad, India, stands a Christian church of the proportions of a cathedral. This is the central place of worship for the great community of Indian Christians, numbering over 50,000, who have gathered around the Rev. C. W. Posnett, a Wesleyan missionary, as a result of his thirty years' work in this native state. The church was opened a year ago, but there seemed something lacking in its beautiful interior, despite the marbles and many tinted tiles. There was no stained glass in the windows. Six thousand Indian Christians, most of them former outcasts, have given the money for a window, designed by Frank O. Salisbury, a well-known British artist. The subject is the Ascension, and Mr. Salisbury says of the window: "The desire of the donors was that their Church should be as beautiful as any Mohammedan mosque or Hindu temple, and I trust that my work will help them to realize their ideal of beauty as an aid to worship."

Canadians Coming Back

Trend of Travel to U.S. Has Been Reversed This Year

No less than 75 moving vans conveying the household effects of returning Canadians have entered at the Port of Rock Island during the present season, according to a customs' official who stated that there had been reversal of the trend of travel from last year. In recent years, he said, the early summer months would see from 50 to 60 of such vans moving south, but this year the movement is northward. Enquiries showed that many of the returning Canadians are going back to the farms which they left.

Constructing Large Elevator

New Building at Port Arthur for U.G.G. of Canada

Work has begun on the construction of a 5,500,000 bushel elevator for the United Grain Growers of Canada at a cost of \$2,000,000, and is to be completed by February, 1928. This elevator will be the largest single working elevator, constructed in one unit, in the world. The building will measure 600 feet by 1,400 feet. It will be an all-concrete structure with 500 concrete storage tanks. Adjoining it will be a dock 1,000 feet long.

Produce Films in Canada

Britain's film quota law is having the effect of impelling producing companies of the United States to seek locations in Canada. Several have sent representatives to Calgary and Vancouver to look over the situation and select prospective sites for studios.

Kill Insect Pests!**FLIT****Kills Flies-Mosquitoes
Roaches-Bed Bugs-Fleas****PAINTED FIRES**

BY NELLIE L. McCLUNG

COPYRIGHT, CANADA, 1925

CHAPTER II.—Continued

Anna dreamed pleasantly of the golden age of which the street corner leaders told, when there would be leisure and luxuries for the workers and confusion for the capitalists; when railways and street cars and theatres and all the sources of pleasure would be free as air; and tire-some, disagreeable drudgery would be gone for ever.

Indeed, for Anna the golden age was already here. Some one would get her her breakfast tomorrow morning; someone would have to make this little stinky, stringy bed—if you call it a bed. That was something, too. Instead of attending to other people and carrying trays and washing dirty dishes, someone was going to do it for her. Hooray!

So Anna sat on her narrow bed, a prisoner before the law, but not cast-down or desolate. She, too, had her own little painted fire, and she had not yet found out that there was no heat in it.

CHAPTER III.

Meanwhile, Helmi washed the gold-clover ironstone dishes at the Yale Hotel, made beds and carried trays and learned new words every day. English language in Helmi's hands became a simple thing. She took no account of its idioms. She did not see why the man who brought the bread should not be called the "loaf-er," or why if the cat licked up its milk Mrs. Spencer would mind if she said in answer to a phone call "Mrs. Spencer is out licking up tea!" It was rather bewildering; and how was Helmi to know that the meter man had to do with the electric light—she thought he must be the butcher?

Helmi's outbursts of temper gave Miss Kenny some concern. The first one was directed against Martha Draper, the bow-legged English girl who washed dishes, and to whom Helmi was now assistant.

Martha had washed dishes in her own untidy way all her life, no one taking notice of her methods. The cook, concerned with roasts and pies and such important things, could not very well cumber her mind with the

details of dish-washing. Martha always had the dishes ready for the next meal, and that was about all that mattered.

Martha believed in purification by fire as well as by water, so she frequently left the potato pot to burn on the stove until the burning smell caused someone to investigate. Helmi had many times shown her the better way, to which Martha had given but scant and scornful attention. Martha had the British tradition—foreigners were dirty and ignorant, and certainly "could tell her nothink."

Martha washed dishes by piling them into the sink without scraping them, turning on the hot water when she was ready, and subsequently rescuing the unhappy cups, saucers and plates from the seething and unlovely flood. Helmi broke into a storm of Finnish rage when she saw it, and let the water run away prior to cleaning out the sink. Then she scraped the dishes until even the clover leaves were in peril, set them in neat piles on the table; scoured the sink, and proceeded to show the lady who had been born within the sound of Bow Bells how dishes should be washed. Martha watched in cold and stiffening silence. She hated dish-washing anyway, and saw nothing in it but a means whereby she could earn money to buy herself some swell clothes. Martha had a "sweetie"—a night watchman at the Parliament Buildings and she believed he meant business. Martha's way of breaking the news of her approaching nuptials was, "I wouldn't be surprised if we saw the finish of the whole business (this summer)."

When the next meal was over the dishes arrived as usual on the kitchen table in their great irregular, dizzy piles, slippery with gravy, pickles and meat. Martha proceeded to insult the sink again (which Helmi had polished into a state of whiteness it had not enjoyed for years) with the presence of the dishes and their unused contents. Helmi was serving the dessert for the evening meal and did not see what had happened until Martha had the sink dripping with dishes. When she saw what had happened she stood quite still, a black rage gathering in her eyes. With the empty tray in her hand she awaited the coming Martha, who came gaily singing into the kitchen with another toppling load of dishes. Helmi waited until she had deposited them on the table, then brought her empty tray down on Martha's head with a metallic crash. Martha screamed in genuine terror and Maggie Kenny and Mrs. Spencer came running in.

Helmi pointed to the littered sink and tried to explain. Martha metaphorically wrapped the British flag around her injured person and called for justice. It was one of those easy cases where the evidence is all in plain sight.

It was Mrs. Spencer who made the abstract of the case.

"Ain't that just like a Finn, Maggie. Well, if she wasn't a tidy girl she clean and neat, but high tempered? wouldn't have done it. Martha, shut up or I'll give you something to bawl for; you're not hurt as bad as all that. Helmi shouldn't have clouted you with the tray. Do you hear, Helmi? Now, Martha, you can get off for the night; Helmi will do the dishes alone. And I've a sort of notion she doesn't mind that, a bit, so every one is satisfied, and it may be that Martha now knows it's a dangerous thing to be too messy with dishes when Helmi's around, anyway."

Helmi lost no opportunity of learning English, and counted the day lost if she had not added a few words to her vocabulary. She used the wrap-plug-paper which came into kitchen

on parcels for the purpose of keeping her lists, tearing it into squares and sewing them together with twine. Martha, who after the unpleasant event just recorded became a better dish-washer and a more agreeable companion, taught Helmi to say the words, resulting in her acquiring a cockney accent which the boarders found very amusing.

Helmi's love for the open took her out when her spare days came. One afternoon a week was hers and every second Sunday. Martha would not come with her even if they had been able to get off together, for she often said she hated the country and liked to see a bit of life when she got out. At home, she always went to see the Guards change at the palace gates, "but why any one would walk out into the country to watch cows eatin' grass" was more than Miss Draper could make out; "but," Miss Draper generously hastened to add, "it takes all kinds." Miss Draper, however, could see some sense in going to see the dresses in the shop windows and picking out which one you would get if you had a king's ransom.

Helmi had now been in the hotel four months. She had acquired enough English to take orders in the dining room.

"Will you have 'am or bicon with your heggs?"

"Peach pie, happle pie or tablo-car?"

She often wondered why she was asked to repeat her orders, and why the boarders laughed, but it was all in the day's work to Helmi.

Helmi's great delight was to get out of the city on her Sunday afternoons, where there were no sidewalks, no pavements, no street cars and few people.

One day she determined to walk far enough to leave all the houses behind. Maybe she would find green grass, or a turnip field, or cows grazing in a meadow, or meet a friendly dog who did not know she was a foreigner. She soon reached the place where the sidewalk ended, and felt once more the good soft earth beneath her feet. It was familiar, home-like, her own. It spoke to her in her own language, it was not laughing at her. If she sowed a seed in it a little plant would come; even if she did not know its English name it would come just the same, and Helmi's heart grew warm with the thought.

The sky hung low that day, seeming to Helmi like a great glass cover over the earth, like the dome of glass that Mrs. Spencer had in the upstairs parlor over her seed-wreath. She lay down on a green slope to look into the sky. It was so like the sky at home it made her feel not so far away after all. Even if words were so different, skies and grass and the ground were the same, and soon she would know how to call them. Aunt Lili, like her, had not known a word of English when she came out.

It was lovely to be away where it was quiet and green and all by herself. It did not matter if one could not speak English here; the sky and the grass and the little creek on whose bank she sat knew no English either. A fringed blue gentian growing in the grass peeped shyly at her as she peered about her. She called it by its Finnish name and wondered if it had ever heard it here.

(To Be Continued.)

The British Medical Association, which has been trying to establish a standard by which drunkenness can be judged, has given up the task as impossible.

Mothers Should Use**When The Babies Are Cutting Teeth**

During the baby's teething time, in the hot summer months, the bowels become loose and diarrhoea, dysentery, colic, cramps and other bowel complaints manifest themselves; the gums become swollen, cankers form in the mouth, and in many cases the child wastes to a shadow, and very often the termination is fatal.

This is the time when the mother should use "Dr. Fowler's," and, perhaps, save the baby's life.

It has been on the market for the past 80 years; put up only by The T. Milburn Co., Limited, Toronto, Ont.

May Decipher Strange Language

Professor is Working on Key to Baffling Characters

The key to the baffling characters of a strange half-Semitic half-Egyptian language which flourished nearly 3,000 years ago and which science has never been able to decipher may rest today with Prof. Kirsopp Lake, head of the Harvard-Michigan expedition to Mt. Sinai, Arabia.

A terse message from Prof. Lake to The Boston Herald reports new found fragments of the mysterious "Sinai inscriptions," which Harvard University authorities said might throw on entirely new light on Moses and biblical history.

The Sinai inscriptions were first found on the mountain where Moses received the tablets of the law but have never been satisfactorily read although authorities never have ceased to seek their solution.

If Prof. Lake's "fragments" fit into the existing gaps it was possible, archaeologists here said, that they might not only remake history but reveal a new origin of modern languages.

The inscriptions were discovered in 1904 during the excavation of the temple of the Egyptian goddess, Hathor, on the side of Mount Sinai. They were carved on stone tablets and images unearthed among ruins of the temple and were in a language never before encountered by excavators, according to Dr. Henry Pfeiffer, Ph.D., instructor in Semitic languages at Harvard.

The characters, he said, were strangely allied to Egyptian hieroglyphics and the later Semitic alphabet, yet were not identical with either.

Nickel Being Largely Used

Long Period of Prosperity Seen for This Canadian Industry

When nickel deposits were discovered in Sudbury, Ont., district back in 1856, the impenetrability of the metal proven and the governments of various nations convinced of its high merits for purpose of armaments, the company faced a long period of prosperity. This was the first phase, and the chief interests of investors today is that up to the end of 1926 some \$77,000,000 had been paid in dividends and the company had built up a net working capital account of \$15,531,000.

The second and much more important phase is the result of the company's invasion of commercial markets, and already production tonnage has attained proportions equal to the best war year. Previously, uses for nickel were comparatively limited; now its uses are becoming general. It has been said that the motor car has supplanted the battleship, but this is only a small part of the story, because nickel is being utilized in more than a hundred products in the factory, shop, laboratory and home.

Conscience Troubled Her

Customs officer McDonald at Newgate has received a letter from a lady living in a Saskatchewan village enclosing 50 cents with the explanation that last summer she failed to declare a cheap new dress she had purchased across the line. As she was a Christian and wanted to do what was right, she enclosed the money as duty.

Keep Minard's Liniment near at hand.

Buoy Makes Long Trip

Drifted From Canadian Coast to Scotland in Two Years

A buoy belonging to the Canadian Government which broke away from its official duties on the Canadian coast two years ago and had since been lost to view has been found in the Firth of Clyde and has been claimed by the Government at Ottawa. Despite its long and slow voyage across the Atlantic the drifting buoy's light was still functioning when the wanderer was found. It is being towed to Port Glasgow, where it will be overhauled.

Learning Defined

Learning is a peculiar compound of memory, imagination, scientific habit, accurate observation, all concentrated through a prolonged period on the analysis of the remains of literature. The result of this sustained mental endeavor is not a book, but a man. It cannot be embodied in print; it consists of the living word.

Minard's Liniment for warts and Pimples.

Little Helps For This Week

Though He be not far from every one of us.—Acts xvii, 27.

Then my heart said, "Glorie o'er, Question no more, no more! The wind, the storm, the wild hermit-flower."

The Illuminated air, The pleasure after prayer, Proclaim the unoriginated Power; The mystery that hides Him here and there Bears the sure witness He is everywhere."

—Alice Cary.

If you wish to behold God, you may see Him in every object around; search in your breast, and you will find Him there. And if you do not yet perceive where He dwells confute me if you can, and say where He is not.

—Metastasio.

WHY TORTURE THE LITTLE ONES

Mothers, do you think it fair to torture your little ones by forcing them to take ill-tasting oils when they need a laxative medicine? Don't you find that the child's dread of these medicines often do more harm than good?

Baby's Own Tablets are the modern substitute for these nauseous doses. They are the very medicine the child requires and are so pleasant to take that they are as easy to administer as a glass of water. They are the perfect remedy for all the minor ailments of little ones, being absolutely guaranteed from injurious drugs.

Baby's Own Tablets accomplish all that castor oil and other bad-tasting remedies can do. In fact they accomplish more as they do not leave the child exhausted from its struggle against taking medicine. They relieve teething pains, banish indigestion and constipation, break up colds and simple fevers and promote healthful, refreshing sleep. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Because of the inequality of their strides lost persons invariably walk in circles; a straight course is impossible to anyone without guiding landmarks.

Wretched from Asthma. Strength of body and vigor of mind are inevitably impaired by the visitations of asthma. Who can live under the cloud of recurring attacks and keep body and mind at their full efficiency? Dr. J. D. Kellogg's Asthma Remedy dissipates the cloud by removing the cause. It does relieve. It does restore the sufferer to normal bodily trim and mental happiness.

The Corinth Canal was started by Nero about 2,000 years ago. The project was abandoned and finally completed in 1893.

Unless worms be expelled from the system, no child can be healthy. Mother Graves' Worm Expeller is an excellent medicine to destroy worms.

The largest passenger steamship in the world, for use on inland waters, is 550 feet long, and was recently launched on the Great Lakes.

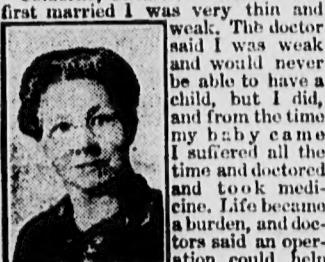

A BROKEN DOWN SYSTEM. This is a condition for disease to which doctors give many names, but which few of them really understand. It is simply weakness, a break-down, as it were, of the vital force that sustains the system. No matter what may be its cause (they are almost countless), its symptoms are much the same; the more prominent being sleeplessness, sense of prostration or weariness, depression of spirits and want of energy for all the ordinary affairs of life. Now, what alone is absolutely essential in all such cases is increased vitality—vigor, vital strength and energy to throw off these morbid feelings, and as night succeeds the day this may be more certainly secured by a course of **THE NEW FRENCH REMEDY, THERAPY No. 3**

than by any other known combination. So sure is it as taken in accordance with the directions accompanying it, will hasten the restoration of **THE EXPIRING LAMP OF LIFE** **LIGHTED UP AFRESH.** and a new existence imparted in place of what had so lately seemed worn-out, used up, and valueless. This wonderful medicine is suitable for all ages, constitutions and conditions, in either sex; and is difficult to imagine a disease or derangement whose main feature is weakness, that will not be speedily and permanently overcome by this recuperative essence, which is destined to cast into oblivion everything that had preceded it for this wide spread & numerous class of human ailments. Sold by leading Chemists, or either by return mail from **Dr. L. C. LACROIX, 40, Boulevard de la Madeleine, Paris.**

AVOIDED AN OPERATION

Mrs. Dayman Gives Lydia E. Pinkham's Vegetable Compound the Credit

Colborne, Ontario.—"When I was first married I was very thin and weak. The doctor said I was weak and would never be able to have a child, but I did, and from the time my baby came I suffered all the time and doctored and took medicine. Life became a burden, and doctors said an operation could help me, but my husband was opposed to that. I had seen Lydia E. Pinkham's medicine advertised, so I told my husband that I thought I would try it, that I might get some relief. I had not taken one bottle when I could feel it helping me. I took five bottles and had better health. Now I have three girls and a boy and have done my work up to confinement. I am now at the Change of Life and owe my good health to Lydia E. Pinkham's Vegetable Compound. I take a bottle when I think I need it."

—Mrs. SUSAN DAYMAN, R. R. No. 5, Colborne, Ontario.

Sold by druggists everywhere.

Bidsbury Pioneer

Display advertising rates on application at the office.

Changes of advertisements must reach the office not later than six p.m. Tuesday to ensure insertion in the issue of that week.

W. P. Cotton, Editor, and Prop.

LOCAL AND GENERAL

Too late for the May-day dance Mr. Boorman is determined to celebrate July 1st in right royal fashion, and is employed this week in erecting a flag-pole at the side of the telephone office. A lot of work has been done by him this year in planting trees, shrubs and flowers, and the premises are now a picture of neatness and regularity. Having thus prepared the setting, as it were, it was a happy thought of his to now surmount the whole with the flag of his country.

Mrs. Semsmith with her daughter Vera are leaving this week on a visit to friends in California.

Miss Johnson of the Didsbury school staff and Miss Clark, east of town, are both leaving on Friday for Nova Scotia.

Bert Cressman and Allan Hunsperger left last week-end by auto for Edmonton.

In connection with the provincial crow and magpie competition, Charles Kahut has done some good work this year. Getting into the campaign early in the season, this young Didsbury lad has been on the trail of Mr. Crow right along, giving attention also at intervals to the magpie and gopher. His individual warfare and peculiar tactics has nettled him so far 2,665 eggs, 468 pairs of feet and 685 gopher tails. Some would call that a "full house" and be content, but from the glint in his eye we venture to think Charles is not done yet.

S. G. Watt, T. Johnson J. R. Miller, J. McDougall, Bert Cressman J. Kirby, R. Hawks, and Bert Fisher took part in a golf tournament at Innisfail last Thursday for the Orton cup.

During the past week a large part of the golf course has been mowed and is now in good shape for play in the holidays.

Innisfail golf members are expected to pay Didsbury a visit on July 7th.

Mr. and Mrs. C. N. Tingle and Mrs. P. Balter of Hanna and Miss McDermott of New York City were the guests of Mr. and Mrs. S. G. Watt last week-end.

Miss Muriel Stewart of Penhold has been declared the winner of the ten dollar prize, offered by the Olds Canadian Club for the best essay on the subject "Why I am proud to be a Canadian." Miss Stewart is a pupil in Grade 8, and has been invited to the Olds Celebration on July 1st.

Dave Irwin of Didsbury and H. W. Wood of Carstairs have been nominated as candidates for the office of delegate for sub-district E-1, in connection with the Wheat Pool. Ballots are now in the hands of the members, and after being marked must be sent to the head office at Calgary not later than July 31st.

Mrs. Sam Good of Carstairs, and Mrs. Wahland Miss Owen, one of the nurses at the local hospital, have each been operate upon at the Didsbury hospital during the past week.

Mr. and Mrs. W. G. Liesemer are leaving in a few days for California.

A meeting of the I.O.D.E. was held at the home of Mrs. W. J. McCoy on Monday night. This is the last of the season.

The Calgary silver band of the Salvation Army, which will perform in Didsbury on Saturday at four p.m., should receive a hearty welcome, and one will hope that a large attendance of the residents will be there for this big musical treat.

Mr. and Mrs. W. Leadbetter and daughter Milly leave on Tuesday next for Vancouver. Portland and other coast points.

Dr. Clark is driving to Edmonton this week accompanied by Mrs. Clark and her mother.

A miscellaneous shower was given at the Presbyterian church on Monday night in honor of Miss Stock. There was a large number present, and the gifts were very numerous and extremely useful.

Birth—On June 19th, Mrs. H. Walsh of a son.

Divine service will be held at St. Cyprian's on Sunday, July 3rd, at four p.m. instead of at three p.m., when Rev. H. Clay will give an address appropriate to Canada's Jubilee of Confederation.

The Bishop of Calgary will pay a visit to St. Cyprian's church, Didsbury, on Sunday afternoon, July 17th.

Residents of Didsbury and district who have resided here for 25 years and more are invited to a picnic to be held at the fairgrounds on Thursday, July 7th, when an attempt will be made to form an Old-Timers' Association. Ladies are requested to take baskets.

Calgary Exhibition AND STAMPEDE

July 11th to 16th, 1927

CALGARY ALBERTA CANADA

Internationally known as the most instructive and thrilling, annual celebration held anywhere. Held in its natural environment, devoid of sham, rehearsal, exaggeration or affection.

Featuring a Nation's Resources and high quality Live Stock.

The Stampede Parade, the Stampede, where champions in cowboy sports are crowned, Western Morning Street Display, Running Races, Indian Races, Western Camp, including Indians, Royal Canadian Mounted Police, Hudson's Bay Log Trading Post, Old Timers, Chuck Wagon outfits, etc., the Cowboys' and Old Timers' Ball, Vaudeville, Australian National Band, Grand Novelty Review, Fireworks.

Reduced Passenger Fares from Saskatchewan, Alberta and British Columbia mainland points, and tourist rates from everywhere to Calgary and Banff.

Accommodation in hotels and rooms may be booked through Dan F. Whitney, president Hotel Association, Calgary.

Visit Banff and Lake Louise—gems of the Canadian Rockies.

It has been announced by Premier Ferguson, of Ontario, that the Government proposes to foster the creation of an industrial research institution with an endowment of \$2,000,000 for the purpose of solving scientific problems of production and process for Canadian industries.

While on a tour of the Maritimes recently, Dr. F. T. Wahlen, chief of the seed branch of the Department of Agriculture at Ottawa, was of the opinion that a great deal more of the seed used in these provinces should be grown on their own farms. The seed is very hardy, he declared, and, with proper care, a market could be established in the northern states of the Union, and the crop profitably disposed of.

The versatility of the seaplane was ably demonstrated recently. C. F. Tennefos, a Swedish sea captain, with urgent business in Shanghai, was taken from the Canadian Pacific Toronto Express at Mission City, B.C., and rushed by seaplane to the outer wharf at Vancouver, where he caught the flagship of the Canadian Pacific fleet, the "Empress of Canada" for the Orient. The seaplane was landed on the Fraser River within easy reach of the depot.

The season for bass fishing in Ontario, with the exceptions of the St. Lawrence and the Ottawa Rivers, has been shortened this year by about a fortnight, opening July 1 and ending November 20, according to information given out by the tourist department of the Canadian Pacific Railway. This action was taken by the Ontario Provincial Government when it was found out that bass had not finished spawning when the season opened June 16 in previous years. The same ruling applies to muscalunge fishing in Ontario this year.

Canada is sending increasing supplies of tobacco to the West of England, according to the Trade Commissioner at Bristol. One organization has built a factory in Ontario, have their own buyers, and are packing the leaf, Canadian Burley, to suit the English trade. Consumers in England are getting used to Canadian tobacco and with the Empire preferential duty, which amounts to 48 cents per pound less than the duty on foreign tobacco, increased quantities of Canadian Burley will find their way to the United Kingdom.

In token of the fact that this year is the Diamond Jubilee of Confederation in Canada, E. W. Beatty, Chairman and President of the Canadian Pacific Railway, has extended a personal invitation to Miss Hortense Cartier, only surviving daughter of Sir George Etienne Cartier, one of the Fathers of Confederation, to take part in the trip across Canada, organized by the University of Montreal under the auspices of the Canadian Pacific, to start in July. Miss Cartier, who is in her 78th year, has accepted, and it is expected that she will meet Sir Hugh MacDonald, son of Sir John A. MacDonald, another Confederation Father, who is police magistrate in Winnipeg.

Didsbury fair, Aug. 3rd

Here and There

It is estimated that 23,500,000 acres will be sown to crops this year in the West, an increase of 2,500,000 acres over 1926.

Canadians hold the record for eating eggs. The average Canadian last year consumed 337—a record according to Dr. J. H. Grisdale, Deputy Minister of Agriculture.

Tobacco-growing is flourishing in Western Ontario, and this year the acreage will likely run to 45,000 or double that devoted to the production of this plant in 1925. The crop last year was valued at \$6,000,000.

One of the most powerful radio stations in Canada will be erected at Red Deer, Alberta, in the near future. Stations will be operated in Calgary and Edmonton by remote control to the main station.

New Zealand will be officially represented at the World's Poultry Congress at Ottawa, July 27 to August 4. R. W. Hawke, one of the Island Dominion's best known poultry breeders, will represent that country.

Besides the game fish hatchery which will be established by the Dominion Government in the Waterton Lakes district in Southern Alberta, a commercial fish hatchery will be established in the north. The latter will also handle certain species of game fish suitable to lake waters.

The Canadian Pacific steamship passenger traffic through the port of Saint John during the winter season of 1926-7 was over 40 per cent. greater than that of the previous season, and it is expected that the summer traffic through the St. Lawrence port will show a still greater increase.

The last addition to the chain of Canadian Pacific hotels is the "Hotel Saskatchewan," located at Regina, opening on May 24. It is one of the finest of the chain of a character in keeping with the importance of the capital city of the Province which furnishes 50 per cent. of the Dominion's wheat output. The hotel is 12 stories, containing 216 bedrooms with bath, and many beautiful public rooms and administrative offices.

The Canadian Pacific Railway Company reports from Winnipeg the marketing of grain at the present rate of 180,000 bushels daily, as compared with 123,376 for the corresponding season of last year. Manitoba's 180,000 compares with Saskatchewan's 533,000 and Alberta's 366,827. Loadings are also above last year's record with 226 cars daily.

The greater portion of the bells forming the carillon to be installed in the Victory Tower, at Ottawa, were shipped from England on May 7 by the Canadian Pacific steamship "Balfour." The carillon, consisting of 53 bells, is regarded as the finest in the world, and have been cast at the famous bell foundry at Croydon. The bells are a portion of a national memorial to thousands of Canadians who laid down their lives in the Great War.

The Province of New Brunswick is rising in importance as a fur-farming province. The report on the fur farms of Canada just issued by the Dominion Bureau of Statistics shows New Brunswick at the head of all the provinces in the matter of the yearly gain in the number of fur farms. These increased by exactly 100 in the year ending March, 1923, nearly doubling the number of the year before and standing in the later year at 208. Prince Edward Island still leads the Dominion in the number of farms, having 570 out of a Dominion total of 2,283, the latter figure comparing with 2,130 the year before. The provinces rank as follows: Prince Edward Island, 570; Ontario 495; Quebec, 458; New Brunswick, 208; Nova Scotia, 152; Alberta and British Columbia, each 120; Manitoba, 53; Saskatchewan, 42, and the Yukon Territories, 20.

Celebrate in Didsbury on July First. A great time.

Bells at Ottawa Broadcast.

(Calgary Herald)

Calgarians will hear the great carillon of bells in the Victory Tower at the Parliament Buildings on the morning of Dominion Day, Friday, July 1st. They will be heard from a loud speaker installed at the Herald Bulletin board, at 9 o'clock in the morning and their music will be picked up by CFAC, the Herald's radio station, and relayed out upon the air again so that all the radio fans within the radius of the Herald station will be able to listen in.

These arrangements were completed on Friday afternoon by Fred Carleton, the engineer in

charge of the station. The entire station will be turned over to the Dominion Government on that morning when the programme from Ottawa will continue from 9 o'clock until noon.

In the evening another programme will be broadcast from Ottawa and will commence at 9 o'clock, Calgary time. This programme will last until 9 o'clock.

This programme at Ottawa will be brought from the east over telephone lines which will be equipped with special relaying amplifiers placed at every 200 miles. The music and the addresses will actually come into the CFAC station on a telephone line, and the loud speaker will be connected to this line. At the same time the programme, as it comes into the station, will be re-broadcast by CFAC.

Calgary Exhibition.

Although the Calgary Exhibition and Stampede has an international reputation for being the most thrilling, instructive and entertaining Annual Celebration held anywhere, the directors and management are determined that this combined event which is to be held at Calgary, July 11th to 16th, Canada's 60th Anniversary year, will surpass all others.

Three new features will add new thrills and greater interest. These include a new stampede contest called steer decorating, the appearance for the first time in Canada of Brahma Steers for steer riding contest and a novelty stage production, "At the Fair," which will be the closing feature of each evening's programme.

Built for Endurance

BEHIND the beauty of Chevrolet there is an abundance of strength and stamina. Just as there is a great store of surplus power. The rugged channel steel frame, the husky banjo-type rear axle, the powerful valve-in-head engine and every detail of construction combine to defy the ravages of wear and tear, of hills and ruts, of mud and sand, of extremes of climate and of hard, continuous usage. As Chevrolet has been designed for beauty, power for performance, planned for economy—so Chevrolet has been BUILT FOR ENDURANCE. And this—the most beautiful, the most powerful and the most rugged Chevrolet in

Chevrolet History—is selling at new, low prices, the lowest for which Chevrolet has ever been sold in Canada.

FOREIGNERS ARE FLEEING FROM INTERIOR CHINA

Shanghai.—With another general strike in the offing and with Shanghai the centre of a continued flight of foreigners from the interior, the defence authorities here made further preparations to protect the international settlement.

A barbed wire barrier now is being constructed along the entire length of the Avenue Edward VII. between the French concession and the international settlement. The Suffolk Regiment also was assigned to guard the offices of the cable companies situated in the Avenue.

The date of the new general strike, which has been decided upon by the general labor union, will be fixed later. There are about 20,000 miscellaneous workers still out from the last strike.

Meanwhile the Japanese naval authorities warned the Cantonese that the Japanese navy will hereafter take drastic steps in the event of unlawful actions by Nationalist soldiers or in the event of firing on Japanese steamers without good cause.

Reports continue of firing on foreign vessels in the Yangtze by Nationalist soldiers on either side of the river. Two British steamers leaving Hankow, which has again become the centre of anti-foreign activities, were fired on. The American destroyer, John D. Ford, which recently came here from Manila, was fired on between Shanghai and Nanking. The destroyer brought its four-inch guns and machine guns into action in reply.

Disquieting reports have been coming from Hankow, scene of anti-foreign disorders some time ago. Advice from a Japanese source in that city said that soldiers in civilian clothes, ruffians and labor pickets were overrunning the city and that the Japanese women and children there will embark on the first available steamer.

Although the great majority of missionaries in the interior of China are now en route for Shanghai, or planning to start soon, about 100 are refusing to leave their posts in the Yangtze Valley, despite the advice of authorities.

Increase In Taxable Value of Property

Statistics Show Figures Higher for Period From 1919 to 1925

Ottawa.—An increase of \$1,302,772,886 in the total taxable value of real property in Canada is shown for the year 1925 as compared with 1919, according to a report issued by the Dominion Bureau of Statistics.

The total value of taxable property in the Dominion was \$7,331,785,535 in the year under review as against \$6,028,912,649 in 1919.

Personal property, which is only taxed in certain provinces, increased from \$52,939,719 in 1919 to \$56,152,434 in 1925.

Thrown Out

Ottawa.—The private bills committee of the House of Commons threw out an act to incorporate the "Thousand Islands International Bridge Corporation."

Lower Duty on Livestock

Western Stock Growers Are Asking For Relief

Calgary.—Urging the Dominion to take all available measures to obtain relief from United States duty on livestock entering that country, the Western Stock Growers' Association addressed a resolution to the Federal Government. Another resolution pointed out the necessity for keeping grain and screenings in Canada and prohibiting export of this commodity to the United States. A petition will be submitted to railways asking reduction of rates on horses to an equality with cattle. The Alberta Government was asked for an appropriation for experiments with grazing rotation and rehabilitation of native grasses. Dr. S. F. Tolmie told the convention that farmers are "losing ten million dollars a year marketing beef of poor quality," and urged establishment of beef grading to better this condition.

Attained Terrific Speed

Major Segrave Drives Car 203 Miles Per Hour

New York.—Major Segrave's record of 203.7298 miles an hour at Dayton Beach marked the nearest approach to the highest speed man has attained, 278 miles an hour, in an airplane.

This air record was set by Florentin Bonnet, of France, in December, 1924. The fastest mark by rail was that set by an engine in a five mile run from Fleming to Jacksonville, Fla., in 1901, by attaining an average of 120 miles an hour.

On the water, Miss Detroit, in 1920, at Lake George, set a record of 77.85 miles an hour for speed boats, while on the Solent, England, the Maple Leaf II. made 59 miles an hour in 1921.

The record of the Cunard line, Mauretania is 27.04 knots, while that of the Leviathan is 28.04.

Pensions Act

No Further Amendments to be Made to the Present Act

Ottawa.—"The Government does not intend to extend the present provisions of the pension act by further amendments this year," stated Hon. J. H. King, Minister of Health and Soldiers' Civil Re-establishment, in the House.

The present pension legislation, said Dr. King, provides pensions for all disabilities "attributed to or incurred during military service," and for "disabilities resulting from injury or disease or the aggravation thereof incurred during military service." No ex-soldier who was so disabled was denied a pension, but responsibility could not be accepted for those whose disabilities were not related to war service.

British Will Protect Colony of Hong Kong

Have No Intention of Diminishing Rights or Authority

Hong Kong.—The British government will give full protection to the colony of Hong Kong and the leased territories on the mainland during the civil warfare in China, according to assurances given by the local secretary of state.

The secretary's communication said the government has no intention of surrendering Hong Kong or abandoning or diminishing in any way British rights or authority in any part of the territories under its administration.

Leaving For Australia

Ottawa.—Hon. Ernest Lapointe, Minister of Justice, leaves Thursday night for Vancouver where he will embark for Australia on April 6. Mr. Lapointe will represent Canada at the opening of the Australian Parliament buildings at Canberra on May the 9th.

Is Made An Indian Chief

Victoria, B.C.—His Excellency Lord Willington, Governor-General of Canada, is now Chief Gotschun, or Chief Rainbow, of the Vancouver Island Indian tribes, having been initiated here in one of the most picturesque and colorful ceremonies ever witnessed in this city.

Talhn, Eschonta, has just opened its broadcasting station, and the radio club there already has 500 members.

AMENDMENTS TO GRAIN ACT ARE BEFORE HOUSE

Ottawa.—Amendments to the Canada Grain Act, proposed by the board of grain commissioners, were tabled in the House of Commons, along with correspondence between the Minister of Trade and Commerce and the commission.

On February 5, the minister wrote to the commission asking for suggested amendments. On February 7, Leslie H. Boyd, chief commissioner, replied, setting forth the proposals. He stated that the board believed the provisions of the drafted amendments would give the farmer the same privileges as "the Campbell bill," which was before the Commons last session. The commissioner's proposals, however, defined the conditions under which grain might be delivered to a country point if the farmer desired to take delivery of the same and ship it to any specific elevator or point.

The drafted amendments covered the duties of country elevators. While the present grain act limits liabilities as to weights and grades, the commission's proposal covers these two important points, and gives the board power to make regulations covering the method of drawing samples. The board, too, could investigate disputes regarding grades and weights. In his letter, Mr. Boyd states that he believes the proposals to be fair and reasonable to all parties.

Spanish-South American Air Service Planned

Will be Financed if German Government Finances Completion of Airship

Berlin.—Airship service between Spain and South America, starting within 18 months, is predicted by Hugo Eckener, Zeppelin expert, provided the German Government furnishes the remaining 2,000,000 marks necessary for the completion of the airship to be used which is being built in Germany.

Similar agreements are expected to be negotiated with the Argentine and other South American governments. It is planned at first to make a round trip to South America every three weeks, carrying a 15-ton cargo consisting mostly of mails but including some passengers. It is estimated that the flight to South America will require from 75 to 80 hours.

Gain in Employment

Ottawa.—There was a moderate gain in employment at the beginning of March, the upward movement being rather more extensive than in earlier years recorded. The largest increases took place in manufacturing and construction, while logging, mining and trade were seasonally slack.

Matter of Defence Left With Government

Canada Not Bound In Any Way Says Premier King

Ottawa.—"In no way has this Parliament or country been bound by decisions made by the Imperial Conference, last fall," declared Premier W. L. Mackenzie King, in the House of Commons, when he reviewed the reports adopted at the Conference, in London. Referring to the question of defence, Premier King declared that no commitments had been made on behalf of Canada with respect to defence, and no request had been made on behalf of the British Government in the matter. It was for each Dominion, through its own government and parliament, to decide.

"It is for this Parliament to say to what extent Canada will take in all matters pertaining to defence," said the Premier.

Manitoba Liberal Leader

Judge Hugh A. Robson Elected to Succeed Hon. T. C. Norris

Winnipeg.—Judge Hugh A. Robson, K.C., prominent in the public life of the West for many years, is the new leader of the provincial Liberal party. He was elected to succeed Hon. T. C. Norris, who tendered his resignation a year ago, at a party convention held here.

Judge Robson was elected from a slate of several nominees, including Fred C. Hamilton, former president of the provincial Liberal Association. Mr. Norris who is the leader of the Liberal group in the Legislature, was nominated, but withdrew his name.

Judge Robson, who was born in Barrow-in-Furness, England, in 1871, came to Canada in 1882, and is a pioneer resident of Winnipeg.

Death of Sir Charles Tupper

Was One of Canada's Most Distinguished Elder Statesmen

Vancouver.—Hon. Sir Charles Tupper, K.C.M.G., K.C.L.B., died at his home here following an attack of pneumonia which had confined him to his home for nearly two weeks.

Sir Charles, was one of Canada's most distinguished statesmen. He was born in Amherst, N.S., in 1855 the son of the late Right Hon. Sir Charles Tupper at one time prime minister of the Dominion.

Salt For Dyspepsia

Washington.—Common salt is as effective as any other remedy for dyspepsia, according to reports of research of the University of Melbourne, Australia, recently received here. Dr. F. A. Apperly has found that common salt helps certain types of plain dyspepsia.

Beating Bill Defeated

London.—An attempt to introduce a bill in the House of Commons to legalize betting in England was defeated by a vote of 146 to 41.

THE EQUALITY OF STATUS BINDING BRITISH EMPIRE

Ottawa.—Hon. Ernest Lapointe, Minister of Justice and chairman of the Imperial Conference committee on treaty-making powers, continued the House debate on the Imperial Conference. Mr. Lapointe was emphatic that the Imperial conference of 1926 had no authority to change one iota of the British North America Act or any constitution of the Empire. What the conference did, Mr. Lapointe explained, was to crystallize "the principle of equality of status, which was already recognized and which was the logical outcome of the development of the various nations. It published a definite, clear and official adherence to that principle. It did that in such a way as to make it the greatest contribution to the permanency of the free association of the nations of the Empire. It is the final and unequivocal acceptance of the principle of unity and liberty, unity preserved and enshrined in the British throne and liberty in all domestic and external activities of the various nations of the commonwealth. It is no longer the case of

"A daughter am I in my mother's house, But a mistress in my own—"

"The family is a family of sisters equal in their rights and activities."

And, concluding his speech, Mr. Lapointe declared, to rounds of Liberal applause, that the principles underlying the pact would illumine the way to peace, progress and nationhood.

Many Claimants to Millions

Dutch Merchant's Fortune Has Drawn Interest for 200 Years

Adelaide, Australia.—A fortune of \$500,000,000 which has been accruing at interest for 200 years, is to be subject of issue in the courts, according to claims that are now being filed here.

Edward Webber, merchant prince of Holland in the days when the Dutch flag was supreme in the world of commerce, died in New York leaving an eccentric will, bequeathing an enormous sum to his seventh generation, claimants assert.

The fortune, which has now grown to \$500,000,000, may create at least 150 Australian millionaires for more than that number in the city of Adelaide alone claim a share.

The claimants are calling a meeting to discuss the matter.

Harvesters From Oxford

University Students Plan to Help Canadian Farmers This Year

Oxford.—Oxford University students are planning to help harvest the Canadian wheat crop next summer. Parties of students are being recruited under the joint auspices of the Canadian government and a Canadian railway. They will sail in July for Montreal and will work on Ontario farms until the middle of August, moving on later to Manitoba and returning to England for the re-opening of college in October.

Trappers Overtake Swift Deer

Many tales have drifted down from the north of how men have overtaken and captured wolves, deer and other swift-footed inhabitants of the woods of Ontario and Quebec. Readers of such have often been skeptical but the above photograph, taken only a short distance from the Canadian Pacific lines in the Laurentian Mountains, proves that such a thing is possible, in the case of deer at least. Heavy snow, as can be seen, accounts for this and in the pictures above several trappers on snowshoes have succeeded in capturing two animals in question. The deer looking placidly into the camera was no doubt caught only after an exhausting chase through the deep drifts. The little doe that seems to be just an armful for the trapper, will doubtless be admired in a short time by thousands of people in some city park. Trappers in the northern sections of Ontario and Quebec have saved many of these young animals from death by freeing them from heavy drifts of snow, and thus keeping them from packs of hungry wolves.

While you are enjoying Wrigley's, you are getting benefit as well.

Mr. and Mrs. Andrew Davis, Mr. and Mrs. Charlie Davis and Mr. and Mrs. Ray Woolley spent Sunday afternoon at Mr. Noah Eckel's.

There was a picnic at Bancroft and one at popular Creek on Saturday afternoon.

Mr. Fred Metz has been spending a two week's vacation at home helping his father to do road work.

The W.I. had a very successful 1 day basketry course at the hall last week and the baskets and trays made were both beautiful and useful.

Mr. Pete Fagel and wife of the Greer ranch spent Saturday in Acme.

Mrs. Wm. Lyons left last week for Fergus Ontario, in response to a message informing her of the death of her father.

The following items arrived too late for insertion last week.

Mr. and Mrs. John D. Greer left Saturday morning for their new home in Cranbrook, B.C. Their sale on June 16th was well attended and bidding brisk.

We are sorry to see Mr. and Mrs. Greer sell their land and move away, as they were most estimable citizens and will be greatly missed in the community.

Mr. and Mrs. Shoemaker are rejoicing over the birth of a son and Mr. and Mrs. Elvin White of Sunnyslope of a son.

Kaspar Sanforth spent Sunday at Mr. Noah Eckel's.

Mrs. Weal and Mrs. McDonald and daughter Hazel of Calgary spent the past week with the former's parents, Mr. and Mrs. Fred Thompson on the Elliott ranch.

The Lone Pine Women's Institute will hold their July meeting at the home of Mrs. W. Ahlgren on Friday, July 8th.

The Wheat Pool Method is Vindicated By Experience

The fact that the Alberta Wheat Pool has increased its membership by some 14,000 farmers since it was formed, offers strong proof of the success of this farmers' marketing organization. The membership in 1923 was 25,000 (in round figures). Today it is approximately 39,000.

Acknowledge The Pool Has Helped

The stabilizing effect of the operations of the Canadian Wheat Pool in the Wheat Markets of the World is acknowledged by leading Old Country importers, millers and bakers.

Practically all non-pool farmers admit the Pool has helped and is helping them. There is no good reason why any farmer in Western Canada with grain to sell should not market it through the Pool. Every new Pool recruit adds to the influence of the organization. Businessmen, professional men and statesmen all testify to the beneficial effects of the operations of the Wheat Pool.

OUTSIDE THE PRIVATE DEALERS IN GRAIN, AND KINDRED INTERESTS THE WHEAT POOL HAS NO ENEMIES.

IS THE POOL NOT WORTHY OF YOUR SUPPORT.

No matter what anyone says to the contrary the Wheat Pool has exerted an upward tendency on prices both in and out of Canada. The Pool has meant fairer dealing to the farmers and a more satisfied and contented countryside. It has meant "better living" for Alberta farmers.

Are these not worthy objects? Has not the achievement of the Wheat Pool been a notable one? Is it not worthy of your active and loyal support?

The Second Series Contracts Are Now Ready.

"Sign for Safety"

The ladies of the Institute are holding their basketry course in the Lone Pine hall this week.

Last Friday, June 24th, a pretty little ceremony took place at the residence of Mrs. Sexsmith, when about eighty little folks assembled to present Miss Stock with a basket of useful miscellaneous gifts. After lunch, a procession was formed, preceded by a little girl carrying a basket of flowers, whilst another little girl at the rear carried a bouquet. After the presentation had been made, Miss Stock thanked them for their good wishes and assured them she would always think of them when using the articles.

A marriage of unusual interest to the young people of the community was solemnized at the United Church manse at Westerdale: on Tuesday, June 21, when Thelma Naomi Jones and William C. Wigley, both of Westerdale, were united in matrimony, in the presence of the immediate friends by Rev. J.W. Smiley. The happy couple left by motor for Banff, where their honeymoon will be spent.—Olds Gazette.

Ottawa Should Co-Operate

The Manitoba Court of Appeal has declared ultra vires the Manitoba Sale of Shares Act and the Municipal and Public Utilities Board, insofar as these enactments purport in any way to control the sale of shares in that Province of a Company incorporated under a Dominion charter. This decision follows one by the Supreme Court of Canada which, in effect, decided that when there is a conflict of authority between Provincial and Dominion legislation, the latter prevails.

In other words, all that is necessary for stock promoters to do in order to get around the measures set up by the Provinces to protect their people from being victimized by unscrupulous promoters of doubtful stocks is for them to secure incorporation at Ottawa. Inasmuch as the Ottawa Government has provided no proper check upon the stock selling operations of Dominion incorporated companies, it means that they may do pretty much as they please.

In view of these judgments, and the failure as yet of the Ottawa Government to take action as has been repeatedly urged by the Provinces, it is gratifying to note that Western Provincial Governments are again recommending that this whole subject be placed on the agenda for the Conference to be held at Ottawa this Fall between representatives of the Dominion and the several Provincial Governments. Ottawa is being asked to supplement the legislation of the Provinces by the enactment of legislation regulating the sale of shares and securities of Dominion companies.

The Ottawa Government should be just as keen to protect all the people of Canada as the Governments of the Provinces are to protect their citizens, and it is beyond the comprehension of the average citizen to understand why the Dominion has so consistently refused to do so.

In this year of Canada's Diamond Jubilee the people of Canada are being urged to forget all sectional differences and to emulate the Fathers of Confederation in working untidily to build up and strengthen the Dominion as a national unit. Any causes of friction between the Federal Government and the Province is a source of national weakness, making for disunion. If any Province feels that Ottawa is not fully seconding their efforts on behalf of their people, the result is to weaken Confederation and that devotion and loyalty to Canada which is so necessary.

In his Dominion Day message to the people of Canada, His Excellency the Governor-General says: "When first I landed on these shores as His Majesty's personal representative, in the first speech I made, I informed my hearers that I should take 'co-operation' as my watchword during my life in this Dominion. That word is the message I give to the people of Canada today. I ask one and all, whatever their origin or race, heartily to co-operate with a common understanding and purpose in all that pertains to the well-being of all: proud of and loyal to their citizenship of a great and growing nation."

Canada could hardly have a better national watchword, and in this matter of regulation of the sale of shares and securities of Dominion companies, it is high time the Ottawa Government reversed its attitude, and, instead of denying the very reasonable requests of the Provinces, proceeded to wholeheartedly co-operate with them in the common interests of all. The Provinces are not asking the Dominion to abrogate any of its powers, but to exercise them in full co-operation with the Provinces, rather than, by neglect, leaving the Provinces at the mercy of all and sundry who, in order to get around legitimate Provincial laws, obtain Dominion incorporation and then defy the Provinces.

This is not co-operation on the part of the Dominion Government. It is not an attitude that tends to create loyalty to Confederation. Persisted in, it will weaken the national tie. Legitimate companies and promoters do not seek to evade Provincial control in this way; it is the doubtful stock-selling proposition and the dishonest promoter who is being assisted because of Ottawa's refusal to join hands with the Provinces in the protection of all the people.

It is to be hoped that the authorities at Ottawa will catch the true spirit of the Diamond Jubilee, put their house in order in this matter, and co-operate with the Provinces.

Artificial Cotton Feasible

Another Useful Product Can be Made From Wood Pulp

Now that Canadians have become quite accustomed to their rayon silk hosiery and underwear, it is time chemistry furnished another startling example of the multiplicity of useful products which can be made from wood pulp. This time it is to be artificial cotton. The prediction of Dr. Harold Hibbert of McGill University comes true. Speaking at the Chemistry Convention recently he said: "One method by which we can extend the usefulness of our pulp is by substituting it in Canada for cotton in all its forms. This is being attempted by the chemists of the Dominion today and it is feasible. The successful substitutes of wood pulp for cotton would benefit Canada in many ways."

Visitor (at seashore):—"I suppose there's no danger in bathing here?"

Old Native—"Lor' bless yer, no sir. All ye have to do is to keep away from the sharks an' the strong currents."

Pleads For Wider Education

University Leaders Should Tackle Problems of Nations Says Currie

Sir Arthur Currie, president of the National Conference of Canadian Universities, pleads for a wider field of education. He believes that university leaders should tackle the vital problems of the nations. Governments, he says, would resent interference, but they would likely accept the consultative services of the conference.

Sir Arthur touches on a vital question in education. It is, in short, a question which affects the very life of the future university. It is a problem of bridging the gap between the academic and the practical.

A correspondent notes a man in Chicago ran over a girl while driving to a hall where he was to give a lecture on "Public Safety" and suggests that he begin his address to the Judge with: "Unaccustomed as I am to public speaking . . ."

Minard's Liniment for insect bites.

Growth of Calgary

Calgary's population is estimated at 81,880 by the 1927 Henderson's City Directory, a copy of which has been received at the Herald office. The director's census for 1927 shows an increase of 3,999 over that of 1926. The Dominion census of 1926 gives the population of Calgary as 65,513.

Will Discuss World Population

Experts Going Into Subject at Geneva Conference This Summer

Has the world too many people, and, if so, what is to be done about it?

This question will be considered at a World Population Conference at Geneva from Aug. 31 to Sept. 3. It is the first conference of its kind ever to be held and will bring together biological, sociological and statistical authorities who have gone far into the study of the population problem, but who have never assembled at a common meeting table to exchange their views and co-ordinate their knowledge.

An advance notice issued by the Advisory Council says:

"The question of population growth holds possibilities of menace to the future of civilization, and yet the world population problem is one of the few great issues of today which have not been the subject of concerted international action."

Joint Soreness Subdued, Swellings Quickly Reduced

Wonderful Results From Rubbing the Sore Parts With

NERVILINE

"My testimony should convince any one that 'Nerviline' is a splendid preparation to use on swollen joints. Rheumatism left me badly crippled," writes Amos F. Fleury, from Kingston. "I went to McKay's Drug Store and they recommended Nerviline, which restored me completely."

For Rheumatic pains, Lumbago, Sciatica, you will get lasting satisfaction from a bottle of Nerviline. Sold everywhere.

To Destroy Icebergs

Montreal Professor to Study Methods of Iceberg Destruction

Dr. Howard Barnes, professor of physics at McGill University, international authority on ice, is now preparing for another trip to Newfoundland to continue his research in the problems of iceberg destruction. He expects to leave with his party in two weeks and will spend several months continuing his work studying particularly the effects of thermite in cracking the icebergs and so making way for weathering effects which lead to their speedy destruction.

This will be the eighth iceberg expedition that Dr. Barnes has organized since 1910. He will be able to take up the work where he left off last summer and expects that the expedition this year will bear particularly fruitful results.

Wise and experienced mothers know when their children are troubled with worms and lose no time in applying Miller's Worm Powders, a most effective vermifuge. It is absolute in clearing the system of worms and restoring those healthy conditions without which there can be no comfort for the child, or hope of robust growth. It is a most trustworthy worm exterminator.

English Boys Making Good

Brought to Canada for Farm Work Have Proved Satisfactory

A total of 1,234 English boys have been moved from the Old Country and placed on farms in Quebec and Eastern Ontario by the British Immigration and Colonization Association according to the report at the annual meeting. Already this year the association has moved and placed 408 boys, and the total for the year is expected to reach 700. More than 98½ per cent. of the boys have turned out satisfactorily, and more than \$18,000 has been saved by them from their earnings and placed in banks to be turned over to them when the periods of supervision are ended.

For Catarrh.—It is one of the chief recommendations of Dr. Thomas' Eclectic Oil that it can be used internally with as much success as it can outwardly. Sufferers from catarrh will find that the Oil when used according to directions, will give prompt relief. Many sufferers from this ailment have found relief in the Oil and have sent testimonials.

Were Unusually Tall

There are many well-authenticated instances of extraordinary height. Duke John Frederick, of Brunswick, was 8 ft. 5 in.; one of the Prussian Guard was also 8 ft. 6 in. O'Brien, the Irish giant, whose skeleton is in the College of Surgeons, London, is 9 ft. 4 in.

Minard's Liniment for earache.

Children Cry for

CASTORIA

MOTHER:— Fletcher's Castoria is especially prepared to relieve infants in arms and children all ages of Constipation, Flatulency, Wind Colic and Diarrhea; allaying Feverishness arising therefrom, and, by regulating the Stomach and Bowels, aids the assimilation of Food; giving natural sleep.

To avoid imitations, always look for the signature of *Dr. H. Fletcher*. Absolutely Harmless—No Opiates. Physicians everywhere recommend it.

Spending Year in Labrador

McMillan Has Taken Snowmobile as Part of Equipment

A snowmobile is part of the equipment which Donald B. MacMillan, Arctic explorer, took with him on his famous schooner Bowdoin when he sailed for a year of scientific study in Labrador. He told something of his plans when in Boston recently to supervise the outfitting of the fishing schooner Radio which he chartered from the Boston Maritime Company as a companion ship to the Bowdoin.

The Radio was loaded with wall-board and other building material which will be used to erect a permanent scientific station near Kowk in Northern Labrador. MacMillan's party numbers 25, of whom 12 will remain with the explorer for studies of the botany, geology and fisheries of the region.

The Bowdoin will carry the scientific equipment and supplies, as well as the snowmobile and dog sleds. The sleds will be driven by Eskimos far into the interior in search of polar bear and walrus.

Besides studying the salmon and trout of Labrador, MacMillan hopes to classify many other fish which he says have long been known but have not been given names by the natives.

Mystery of Science

Hundreds of Live Clams Found 20 Miles From Sea Coast

One of science's choice morsels of mystery is believed to have been uncovered when a bed of hundreds of live clams was found on the side of Scotia's bluff, twenty miles south of Eureka, Cal., and about the same distance inland from the Pacific ocean.

Workmen operating a steam shovel on the Northwestern Pacific railroad, biting with the shovel into the side of the bluff, approximately 120 feet above sea level and some eighty feet above the Eel river, directly below, traced a path through the biwalyan colony.

Those making the discovery said the clams did not resemble the fresh water variety, but were similar to the Tazor clams of salt water.

Time has Tested It.—Dr. Thomas' Eclectic Oil has been on the market upwards of fifty years and in that time it has proved a blessing to thousands. It is in high favor throughout Canada and its excellence has carried its fame beyond the seas. If it were double the price it would be a cheap liniment.

Juvenile Immigration

Over 80,000 Children Brought to Canada by Various Societies

The annual report for 1925-26 of G. Bogue Smart, Supervisor of Juvenile Immigration, in the Department of Immigration and Colonization, shows that since the year 1868 the number of children sent to Canada by various philanthropic agencies or societies, is 83,888. Of these 26,555 have come from the Dr. Barnardo Homes, while two other agencies that have brought 14,578 and 5,529 juveniles respectively, have now amalgamated with the Barnardo Institution. For the year ending March 31st 1926, 1,862 children—1,590 boys and 272 girls—were brought out to Canada.

A school in Oklahoma City last fall offered to accept cotton in payment of tuition and about 200 students took advantage of the opportunity.

Alberta Wheat Pool Elevators By harvesting time the Alberta Wheat Pool will have 142 elevators in operation. It started into the elevator business last year with 42 interior and the Prince Rupert terminal elevator. It has bought a site for a big terminal elevator at Vancouver, and will build 100 in Alberta this season to supplement the 42 acquired last year.

GAINED IN HEALTH AND IN WEIGHT

Now Gives All the Credit to Dr. Williams' Pink Pills

When a young girl becomes pale, complains of exhaustion at the least exertion, has dizzy spells, headaches or stomach trouble, she should know that these are some of the many symptoms of anaemia, which means that her blood is thin and weak. In such conditions there is the most urgent need for a tonic that will promptly restore the missing qualities to the blood and thus bring back health and strength. For this purpose there is no tonic can equal Dr. Williams' Pink Pills. Thousands of weak and ailing girls have found new health and happiness through this medicine. Miss Gladys V. Bond, Kentville, N.S., used this treatment successfully, and says:—"I cannot praise Dr. Williams' Pink Pills too highly for the good they have done me. I was in a condition of very poor health, suffered from severe headaches and nervousness. My appetite was poor, and very little exertion would leave me tired out. On the advice of a friend I decided to try Dr. Williams' Pink Pills. In a few weeks I began to feel better, my appetite improved, and the headaches were less frequent. I continued the use of the pills until I had taken six boxes, by which time I felt as well as ever, and I gained in weight from 98 pounds to 114 pounds. For this reason I advise all weak girls to try this medicine."

Try Dr. Williams' Pink Pills for anaemia, rheumatism, neuralgia, nervousness and stomach trouble. Take them as a tonic and cultivate a resistance that will keep you well and strong. You can get these pills through any medicine dealer or by mail at 50c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

American Settlers Coming

Seven Illinois farm prospects passed through Winnipeg the other day on their way to North Saskatchewan and Alberta, looking for likely districts to settle in. They came from Chicago with C. J. Broughton, Canadian Government agent at Chicago, and left with him on the Trans-Canada Limited. Large motor parties of farmers are due in Western Canada this summer, according to Mr. Broughton.

Soft corns are difficult to eradicate, but Holloway's Corn Remover will draw them out painlessly.

Teacher: "What excuse have you for being so late?" Johnny (breathlessly): "I ran so fast, teacher, that I—didn't have time to think one up."

Asthma.

Spread Minard's on brown paper and apply to the throat. Also inhale. Quick relief assured.

MINARD'S
"KING OF PAIN"
LINIMENT

MORE HARMONY IS IN EVIDENCE AT GENEVA MEET

Geneva. — Conciliation is taking shape among the divergences of the powers studying naval disarmament here. Great Britain's desire to reopen affairs arranged at the Washington naval conference may be partially appeased by a proposal from the United States delegation to adopt a resolution agreeing that any arrangement made at Geneva will not prejudice the agenda of the second Washington conference to be held in 1931.

There emerged from a discussion between Hugh Gibson, head of the United States delegation, and Admiral Saito of Japan, the possibility that the Japanese sensitivity on the point of inferiority in cruiser strength might be soothed by a proposition to make the relative strengths of the United States and Japan 5-3-4 rather than 5-3.

Indications are that the Americans expect no insuperable difficulties in establishing the proportion.

In the British-American matter of re-opening the affairs of the Washington conference, it is pointed out that by the very terms of the Washington treaty the nations must convene to determine whether the developments of science justify any modification of the Washington decisions as to the size of battleships, cruisers and aircraft-carriers. This incidentally would bear on the recent trans-Atlantic flights of Lindbergh and Chamberlin, which have raised the question whether aircraft-carriers should not be increased in size and number to meet the rapidly developing speed of inter-continental air communication.

If the Japanese plan were accepted, it would give Great Britain a considerable higher percentage of war-craft than the United States, and some way must be found in juggling all three plans to establish parity, on paper at least, between the two Anglo-Saxon nations, leaving the United States people to decide whether they wish to build up to the treaty-declared parity.

Suffragists Hold Dinner

Celebrate Twentieth Anniversary of First One Imprisoned in London

London.—Twenty years ago June 21 the first suffragists saw the inside of Holloway Jail. This was Miss Billington; now Mrs. Billington Greig, who had emphasized her opinions on the women of Great Britain being deprived of the right to vote by creating a disturbance outside of the residence of Sir Henry Campbell-Bannerman, then premier.

Mrs. Billington-Greig, with some thirty women of the suffragist movement of that time, celebrated the twentieth anniversary of her imprisonment by a dinner.

Mrs. Emmeline Pankhurst and her daughter Christabel who were amongst the earliest sufferers of imprisonment in connection with the British women's movement for suffrage, were not represented. Nevertheless, the gathering included some interesting personalities.

Edmonton Boy Soloist

Edmonton.—Believed to be the first time that a Canadian boy has been chosen King's Chorister, Robert Henry Palmer, boy soloist of Holy Trinity Church and son of Col. R. Palmer, D.S.O., former commander of the 49th overseas battalion, has accepted the position of probation choir boy in St. George's Chapel, Windsor Castle, England. The offer came through Dr. Fellowes, who accompanied the Westminster choir on their Canadian tour a few months ago and heard Master Palmer sing here.

Ruined By Earthquake

London.—An earthquake on May 23 ruined the greater part of Llangoch, in the northern part of Kiangsu province near the Mongolian border, it is reported in despatches from Shanghai. A message received by the Daily Mail says the chief magistrate and many others were killed and that all the towers of the city gates and two pagodas, 2,000 years old, were demolished.

Judges Are Criticized

Importance of Co-operation Between Police Officers and Magistrates is Stressed

Vancouver.—Criticism of supreme and county court judges who quashed important convictions on technicalities of law without due consideration of the seriousness of the crime involved was made by Police Magistrate H. C. Shaw before the opening session of the 23rd annual convention of the Chief Constables' Association of Canada here recently.

In stressing the importance of co-operation of police officers with judges and magistrates, he declared it should be greatest with the latter, who deal with crime and not laws.

Advocates of elimination of municipal and political influence in police forces was made in the report of Assistant Inspector William Wallace, Toronto, secretary-treasurer of the association.

"I know of no change in our provincial statutes so urgent as the adoption of a law that will remove police department from political and municipal influences and interferences and place them under the control of a responsible and independent police commission," he said.

The Empire Educational Conference

Delegates Are Welcomed With Cordial Speech by Prince of Wales

London.—The Prince of Wales opened the Empire education conference in the board of education's offices with a brief, cordial speech of welcome. Later he chatted with the delegates and shook hands with each.

The proceedings were private, but the official report issued at the close reports the speech of Dr. F. W. Marchant, chief director of the department of education of Ontario.

Dr. Marchant declared the introduction of a more practical element into the primary course made children more interested, improved the attendance and led to the raising of the school-leaving age to 16 years. A greater flow into secondary or post-primary schools also was stimulated. It was now agreed that close co-operation between the school and employer was needed to prepare pupils for trade, he pointed out.

Filling Russia's Order For Canadian Horses

First Shipment Will Be Entirely From British Columbia

Ottawa.—The first shipment of Russia's order for 4,000 Canadian horses will leave Quebec about July 15, it was announced at the department of agriculture.

These horses numbering approximately 1,400 will all be from the province of British Columbia. The remainder part of the order will be filled by the purchase of horses in Manitoba, Saskatchewan and Alberta. The average price of the whole order of 4,000 head will be, it is estimated, around \$30 each.

Visible to Naked Eye

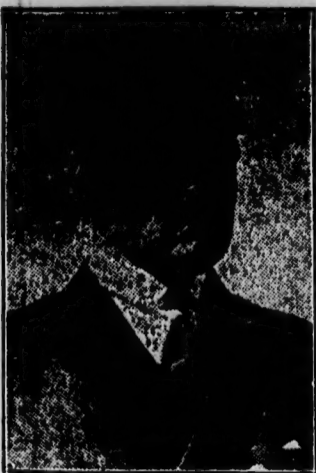

Minneapolis, Minn. — Pons-Winnecke, the comet without a tail, came within 3,000,000 miles of the earth June 21st, and was visible to the naked eye. The earth, according to Prof. William O. Beale, of the University of Minnesota, drew the comet from its course for a short time, but the greater magnetic forces on the sun drew Pons-Winnecke back to its regular path.

Trophy Comes West

Montreal.—Transcona won the annual system fire brigade competition organized by the insurance department of the Canadian National Railways and the trophy will go West for the first time and repose in Winnipeg for at least one year. Second place went to the Battle Creek, Mich., team; London, Ont., came third and Moncton, N.B., fourth.

Wins 480 Mile Marathon

Grants Pass, Oregon.—Hull, Karlok Indian runner finished the 480 mile Redwood Highway marathon here 10 miles ahead of Flying Cloud, his nearest rival and 30 miles ahead of Melika, a Zuni, the third runner. He wins a prize of \$1,000.

Wires Assistance

Directing the treatment of a critically injured sailor 190 miles away by wireless and thereby saving the man's life has been the experience of Surgeon Taylor of the Canadian Pacific steamship Minnedosa photographed above. On May 29 a wireless was received that John Pope, a sailor of the American vessel Nadrar was badly injured by a fall sixty feet from the cross trees of the mast. The two ships were nearly 200 miles apart but the course of the Minnedosa was altered and they heaved to towards the end of the day. The injured man was transferred to the Minnedosa's hospital and aboard that ship was rushed to a Quebec hospital. The accident took place in mid-Atlantic.

STAMP TAX ON CIGARETTES WILL REMAIN IN FORCE

Ottawa.—The cigarette stamp tax reduction application to the tariff advisory board stands adjourned until next fall.

W. H. Moore, chairman of the board, stated that a date for the further hearing of this matter would be named as soon as possible. The applicants, the Imperial Tobacco Company Ltd., Montreal, then would likely be asked to submit whatever further evidence the board desired in support of the company's request for a reduction in the stamp tax from \$6 to \$3 per thousand.

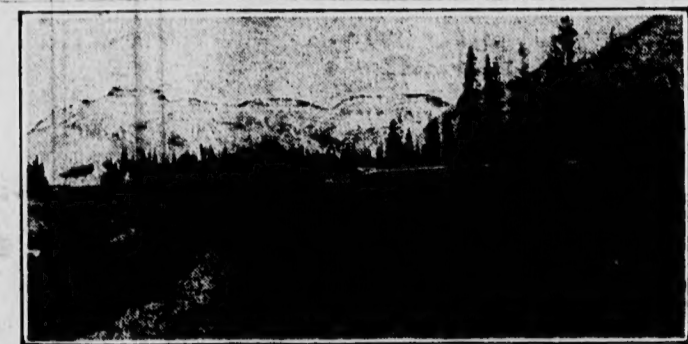

A lengthy session was largely consumed in the evidence of witnesses in respect to the smuggling of cigarettes from the United States into Canada, estimated by David A. Paterson, president of the company to amount to 600,000,000 annually.

J. Murphy, tobacconist, Windsor, Ont., said about 12,000,000 cigarettes were brought across the line at the Border Cities each year.

A. Auger, private detective, Montreal, declared the amount of duty charged by customs officers at different points of entry in Canada varied in the same quality of cigarettes. In one store in Detroit he had seen nearly 54 Canadians enter within five minutes to purchase cigarettes to bring back to the Dominion.

Crop Prospects Good

Vancouver.—Prospects point to a good crop throughout the prairies this year, stated Leslie H. Boyd, chairman of the Board of Grain Commissioners for Canada, on his arrival here.

C.P.R.'s New Mountain Car

One of the first photographs of the new type of mountain observation car being used successfully this season by the Canadian Pacific Railway Company. The car is seen attached to the rear of the Trans-Canada, the crack summer trans-continental of the C.P.R., just as it is about to lose itself behind the lofty peaks that surround the mountain resort of Banff.

Have Justified Claim For Self-Government

People of Irish Free State Are Prosperous

Chicago, Ill.—Hon. Timothy A. Smiddy, Irish Free State Minister to Washington, speaking before the Norman Walt Harris Memorial Institute of the University of Chicago, declared that "the people of the Irish Free State have already amply justified their claims to be allowed to govern themselves."

Prof. Smiddy traced the progress of Southern Ireland since her recognition as a separate nation within the British Empire. A constitution had been written and the foundations for a prosperous business life had been laid. Economic prosperity had followed political freedom and "the more this freedom is an established fact the more absolute equality of the status of the Irish Free State with that of Great Britain herself and of the other Dominions manifests itself in the ordering of her own life, the greater will be the moral bonds which bind her to her associates in the British Commonwealth of nations."

"The more this absolute equality is realized in fact the greater will become our friendship for Great Britain; the greater will be solidarity of the British commonwealth through contentment among the people of the Irish Free State and their kith and kin."

Will Attend Soviet School in Russia

Children of British Reds Sail for Moscow Without Passports

London.—The Daily Mail says that six children of British Communists have left London for Leningrad aboard the Soviet steamer Youshar, notwithstanding the Home Secretary's refusal to grant them passports. Five boys about 12 years of age, and a girl of the same age, are voyaging to Russia in response to the invitation of Moscow, apparently for purposes of education.

Moscow's invitation was announced on May 13 and after a discussion in the papers it was stated on June 13 that the Government had decided to refuse passports, thus establishing a precedent, as heretofore passports have not been refused unless the applicant had been convicted of a crime.

The next step was a declaration by A. J. Cook, secretary of the Miners' Federation of Great Britain, that a way would be found to send the children despite the Government. This seems to have been done.

Western Pioneer Dead

Sheriff Peter Gunn of Edmonton Had Varied Career

Edmonton.—Sheriff Peter Gunn, of the judicial ridings of Athabasca and Peace River, who came to Alberta 44 years ago, from Scotland, to enter the employ of the Hudson's Bay Company, died June 21, at the age of 63 years. The life of this pioneer was a varied one, as he acted as Hudson's Bay factor, farmer, and Dominion fishery inspector, and also represented the provincial riding of Lac Ste. Anne for eight years, in the Alberta Legislature. He was appointed sheriff in 1916. In politics he was a Liberal.

BRITISH LABOR IS OPPOSED TO SOVIET SLAYINGS

London. — The fervent hope that executions in Soviet Russia such as those of the recent 20 alleged counter-revolutionists will cease was voiced in a resolution adopted at a joint meeting of the executive committee of the Labor Party and of the general council of the Trades Union Congress.

"While recognizing the Soviet Government's indignation at the murder of M. Volkoft (Soviet minister at Warsaw)," the resolution said, "we are obliged to protest against the execution of persons innocent thereof as a reprisal."

The conference also adopted a resolution expressing "uncompromising opposition to the Government's proposals for the so-called reform of the House of Lords."

"We are of the opinion that the House of Commons should be the supreme authority in legislation and finance and that the hereditary upper chamber should be abolished," the resolution said.

Would Purchase Paper Mill

Race Between Canadian and U.S. Companies to Secure Plant in Newfoundland

St. John, Nfld.—A race between Canadian and United States interests to obtain a foothold in the Newfoundland pulp and paper industry developed when a large Canadian corporation notified the Government that it desired to purchase the paper mills at Corner Brook on the West Coast.

The International Paper Company of New York already was negotiating for this property.

The name of the Canadian company was not divulged but it was said the terms offered were considerably more favorable from the point of view of the government than those of the International. The great plant at Corner Brook was built by Newfoundland and British capital, the two governments guaranteeing the bonds of the enterprise. Recently the company operating the mills asked the government for permission to sell to the International at the same time asking for certain concessions for the latter corporation.

Changes King's Title

Royal Proclamation Has Been Received at Ottawa

Ottawa.—Official copy of the royal proclamation recently issued from Buckingham palace, changing the title of His Majesty the King, was received by the department of secretary of state.

The new title of His Majesty, which was approved at the Imperial Conference last fall, so as to accord with the altered state of affairs arising from the establishment of the Irish Free State as a dominion, is: "George V., by the grace of God, of Great Britain, Ireland and the British Dominions beyond the Seas, King, Defender of the Faith, Emperor of India."

Opens War on Speeders

Quebec.—Relentless war against automobile speeders and summary suspension of the licenses of those caught exceeding the speed limit of the law is the ultimatum laid down by Hon. J. L. Perron, Minister of Highways for Quebec. "Auto riding has become the great summer sport," said Mr. Perron, "but unfortunately the pedestrian can hardly venture on our highways without danger to life and limb."

Another Distance Flight Planned

Prague, Czechoslovakia. — Two Czechoslovak airmen, Captain Franz Malkovsky, and Lieut. Ludwig Pavlosky have announced their intention to fly from Prague to New York and return in August. Their plane and its motors will be of Czechoslovakian manufacture.

Beer in Ontario

Toronto.—The Ontario Liquor Control Board announced that it would allow the sale of beer by the keg and that there would be a reduction in prices. According to the announcement, buyers also will be able to purchase beer direct from the breweries.

Church Announcements EVANGELICAL NOTES.

Another Evangelical dream has come true - the vision and high hope of the Evangelical Church fathers, a quarter of a century ago is realized in the reality of a North-west Canada Conference of the Evangelical Church. The organization was made and officially declared here on Thursday afternoon, June 23, 1927. Deep interest and much enthusiasm was shown in this matter by the laity as well as the ministerial members of the church. Hearty responses in word and deed were given everywhere; for instance during the four day's conference session a total of approximately two thousand dollars were given as a free-will offering in the interests of this new conference. This amount will be applied mainly to the Missionary activities here in the west.

The conference guests who took in the Banff-Lake Louise trip on Monday, report it as a rare privilege and most memorable outing. A large taxi from the noted Calgary-Banff-Bowster Taxi Co. was engaged for the day's trip. The round trip from Didsbury to Lake Louise including numerous visits to points of interest along the wayside was 376 miles.

KNOX and WESTCOTT

Rev. A.F. Hayes expects to occupy the pulpit Sunday, July 3rd. Throughout Canada services in connection with the Diamond Jubilee are being held. A message bearing on the occasion will be delivered.

LONE PINE HALL

Sunday, July 3rd. Sunday School at 2 p.m. Church services at 3 p.m. The services will be in connection with the sixtieth anniversary of Confederation.

Those living near Community Hall are urged to attend the services at Lone Pine on this occasion.

LUTHERAN CHURCH.

Westcott 10.30 German

Sunday is Dominion Sunday when the churches of the land will take an active part in the celebration of the Diamond Jubilee of the Confederation.

Befitting the occasion, the pas-

tor will speak on the "Privileges and Duties of the Citizens of Canada." Under duties the following four points will be emphasized: a. that all citizens, particularly the Christians are in duty bound to obey the laws of the land in which they live. (Romans 13:1); (b) that they are to honor and respect both their government and king (1 Pat. 2:17); (c) that they are to pay tribute and taxes (Romans 13:7); (d) and that they are to remember their King and the men in authority in their prayers (1 Tim. 2:1-3). A full congregation is expected.

WESTERDALE.

Anniversary services of the Westerdale United Church will be held on Sunday, July 3rd.

Morning service at 11 a.m.

Evening service at 8 p.m.

Rev. Thos. Powell of Calgary will preach at these services. Mr. Powell will also speak at the patriotic Sunday School service on the same Sunday at 2.30 p.m. at Harmattan.

He will give a lecture at the Harmattan hall on Monday evening July 4th. The Gilbert orchestra of Olds will pay their first visit to Harmattan on this occasion. An interesting programme is being planned for this evening. Rev. J.W. Smiley.

Edmonton Exhibition.

In order that the Edmonton Exhibition, July 18 to 23, this year may be even better than that of 1926, the Exhibition Association are doing all in their power to stimulate the interest and enthusiasm of the people of Edmonton and the surrounding districts. Because of the large number of improvements now under way it is impossible to describe them other than in a very general way.

There has been a \$5,000.00 increase in the prize money, which now totals \$50,000.00 and new classes have been added in almost every section of the prize list.

All entries close July 4th. The monster pageant, 1000 people participating, will be something seldom seen outside the British Isles. The Australian National Band will be the outstanding musical

attraction. Reduced rates on all railways from all points in Alberta and Saskatchewan will be in effect.

Wheat Pool Drive Going Good.

The reports coming into the Alberta Pool head office from various parts of the province, and the constant stream of Second Series contracts which every mail bring in, indicates that the drive for the sign-up is going over in fine shape. Canvassers who have covered their districts state that many non-Pool members are joining up, and the great majority of old members are signing the new contracts.

To date over seventy per cent. of the Saskatchewan Pool members have signed the new series contracts.

George Broomhall, probably the best-posted authority in the world on international grain marketing, in an article in the London Times, says: "Competition is greatly curtailed and expenses reduced by centralized handling, while there is always a chance that a Pool dealing with millions of bushels, may obtain very favorable rates of freight."

"The limitation of selling competition is an important matter and there is reason to think it has been a powerful influence in preventing a bad slump in prices in the current season."

"Before the Pools were in existence merchants were sometimes heard to say that wheat was being flung at them but it is not so now. The Pool's aim is to 'feed the market.'"
